

Activité 1 : Sélectionner parmi les six propositions :

The diagram shows a grid of letters with arrows indicating vector directions between them:

- Letter A: A box with a left-pointing arrow and an up-pointing arrow.
- Letter B: A box with a top-left to bottom-right diagonal arrow and a down-pointing arrow.
- Letter C: A box with an up-pointing arrow and a down-pointing arrow.
- Letter D: A box with a left-pointing arrow and a down-pointing arrow.
- Letter E: A box with an up-pointing arrow and a left-pointing arrow.

To the right of the grid are six options, each consisting of a circle and a box with two arrows:

- Circle, box with up and down arrows.
- Circle, box with right and dot arrows.
- Circle, box with up and top-right to bottom-left diagonal arrows.
- Circle, box with right and top-right to bottom-left diagonal arrows.
- Circle, box with right and up arrows.
- Circle, box with down and top-right to bottom-left diagonal arrows.

Activité 2 : Dessiner les vecteurs manquants

The diagram shows a grid of letters with some arrows and some empty boxes for drawing missing vectors:

- Letter A: A box with a left-pointing arrow and an up-pointing arrow.
- Letter B: A box with a top-left to bottom-right diagonal arrow and a down-pointing arrow.
- Letter C: A box with an up-pointing arrow and a down-pointing arrow.
- Letter D: A box with a left-pointing arrow and a down-pointing arrow.
- Letter E: A box with an up-pointing arrow and a left-pointing arrow.

There are several empty boxes in the grid, some of which are intended for drawing missing vectors. The missing vectors are:

- Top-left to bottom-right diagonal arrow and a right-pointing arrow (top right).
- Top-left to bottom-right diagonal arrow and a dot (middle left).
- Up-pointing arrow and a right-pointing arrow (middle right).
- Right-pointing arrow (middle right).
- Up-pointing arrow (bottom left).
- Top-left to bottom-right diagonal arrow and a left-pointing arrow (bottom right).
